

SIMPLY FOG JUICE™

PREMIUM THICK ECO FRIENDLY FOG JUICE

Environmentally Safe, Professional Fog Fluid

SIMPLY FOG JUICE™

PREMIUM THICK ECO FRIENDLY FOG JUICE

Why don't we use the same ingredients as everyone else on the market? Because we feel Propylene Glycol is a questionable ingredient. It acts as a cell membrane inhibitor and can pull nasty carcinogens in the air into the bloodstream with it. This ingredient has been and continues to be banned from products at Natural Products stores across North America.

By using different ingredients, we're able to produce a fog that lasts longer, creates a thicker fog, and a formula that doesn't leave behind calcium deposits or hard water stains. Oh and by the way, it's safe for YOU and YOUR CUSTOMERS to breathe!

FOR BEST RESULTS WITH SIMPLY FOG JUICE™

Clean your fog machine BEFORE using our formula.

Clean with distilled water and vinegar with a 50/50 mix.

HOW TO CLEAN YOUR FOG MACHINE

1. Open reservoir and dump out old contents.
2. Start fog machine and pour in water and vinegar mix.
3. Run fog machine for 15 minutes with cleaning mixture
4. Pour out remaining cleaning mixture.
5. Fill with Simply Fog Juice™ and enjoy!

SPECTACULAR RESULTS WITH NATURAL, SAFE INGREDIENTS

Our company believes you can create a great product that customers will love without cutting corners by using cheaper and harmful chemicals. We apply real science to organic compounds to bring you healthy products that work!

SIMPLY FOG JUICE™

Simply Fog Juice uses pharmaceutical grade ingredients that have been approved by the FDA as safe. This ensures our product will not have any adverse effects on you or your customers. By using natural ingredients, we're able to produce a fog that lasts longer, creates a thicker fog, and a formula that doesn't leave behind calcium deposits or hard water stains. OH AND BY THE WAY, IT SAFE FOR YOU AND YOUR CUSTOMERS TO BREATHE!

- Safe to Breathe
- Lingers longer than other brands
- No Calcium Buildups
- No Hard Water Stains

MADE FOR PROFESSIONALS, BY PROFESSIONALS

Fog fluid can make or break an attraction. We not only manufacture fog fluid but we use it too! We have been running a haunted house attraction for over 5 years and we made this specifically for our business. Consumers would ask us where we purchased it and that's how Simply Fog Juice™ was born. We are proud to say that we manufacture our fog fluid in Janesville, WI (USA).
